

PRESS RELEASE

Tailem Bend Motorsport Park Pty Ltd has announced that it is now holding activities and events and accepting bookings, according to TBMP Manager Jo Malloy.

“The Coorong District Council along with the Regional Development Australia Murraylands and Riverland Inc Board have worked closely with us to allow us the opportunity of developing an International Standard Motorsport Complex and Training Facility at the former Mitsubishi test track site”. Ms Malloy said.

The facility has successfully hosted a MotoTrial event, the Corporate Media Release of the new Porsche 911 Turbo, a special stage of the Clipsal 500 Rally Touring Road Event, Vehicle Component Testing as well as Advanced Driver and Rider Education Programs for not only local providers but also from companies from Queensland and Victoria.

“In the coming months we will see other activities including various Rallies, both on the dirt and the bitumen, Motorkhana's, Kanacross, Motorcycle Enduro, Drifting, Dealer Product Information days and Sprint Events as well as Advanced Driver/Rider Education Programs including Junior Development and Coaching Programs. Junior Development allows children to enter the motorsport arena in a controlled and safe environment.

“Although the name Tailem Bend Motorsport Park suggests that the facility is primarily used for motorsport activities, the site is suitable for many purposes and we have so much more to offer. The site is approximately 680 hectares that comprises a 1400 metre asphalt straight with a 80 x 80 metre skid pan that is capable of being irrigated with reticulating water and a variety of loop roads surrounding it. We have approximately 23 Kms of dirt and gravel roads and then another 350 untouched hectares.

“Tailem Bend Motorsport Park can assist anyone involved in a club, organisation, driver/rider training or corporate business who is looking for somewhere to enjoy motorsport, participate in a program that will improve your driving skills or hold corporate functions. If you are involved in a school and would like to explore the possibility of varied and practical education programs for your children to enjoy away from the class room atmosphere, we would welcome any opportunity to have your school and your children involved in this exciting project” Ms Malloy said.

For anyone wishing to become involved in the facility there are many opportunities to do so whether it be participating in a club event or activity as a driver/rider or perhaps becoming an official for either car or bike racing. Tailem Bend Motorsport Park welcomes any opportunity to have the public involved.

An insight to what is currently on offer, TBMP's vision for the future and an aerial map of the site are included in the attached information leaflet.

Any clubs or organisation can use the existing facilities and are invited to contact TBMP.
